### About Deloitte Technology Fast 50

The Deloitte Technology Fast 50 is an annual ranking of the fifty fastest growing technology companies in the Netherlands. The selection is based on the percentage of sales growth over the past four years (2016 – 2019). Companies younger than 4 years can participate in the Deloitte Technology Fast 50 program as participant in the Rising Star category. They are assessed on sales potential, degree of innovation and scalability. Rising Star category nominees will be announced on Monday 2 November 2020. Participants come from the public and private sectors and cover all technology segments. For more information: www.fast50.nl.

> *We are pleasantly surprised by the number of participants this year despite the COVID-19 crisis. The participants show an impressive tech-enabled growth. Bart de Vries, program leader of the Technology Fast 50*

> *We are very proud of the number of registrations and see a lot of former Rising Stars in this list. This emphasizes the importance of this element of the Technology Fast 50. As most companies are online orientated and are used to adapt to changing conditions, we hope that most companies will get better out these challenging times. Ivo Meij, Senior Manager at Deloitte and serves many Fast 50 companies and startups*
